

Thermo

```
classDiagram
    class Thermo
    class src_gmxio_Thermo_GMX["src.gmxio.Thermo_GMX"]
    src_gmxio_Thermo_GMX --|> Thermo
```

The diagram illustrates a realization relationship. At the top, a white rectangular box with a thin gray border contains the text "Thermo". Below it, a gray rectangular box with a thick black border contains the text "src.gmxio.Thermo_GMX". A solid blue arrow points vertically from the top center of the gray box to the bottom center of the white box, indicating that the implementation in the gray box realizes the interface or abstract class defined in the white box.

src.gmxio.Thermo_GMX
