

src.opt_geo_target.OptGeo
Target.parse_optgeo_options

```
graph LR; A["src.opt_geo_target.OptGeo  
Target.parse_optgeo_options"] --> B["src.nifty.warn_press_key"]
```

A diagram showing a mapping from a source function to a target variable. The source function is 'src.opt_geo_target.OptGeoTarget.parse_optgeo_options' and the target variable is 'src.nifty.warn_press_key'. A blue arrow points from the source function to the target variable.

src.nifty.warn_press_key
