

```
src.molecule.Molecule.all  
_pairwise_rmsd
```

A diagram illustrating a transition from a deprecated method to a new one. On the left, a gray rectangular box contains the text 'src.molecule.Molecule.all' followed by '_pairwise_rmsd' on the next line. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'src.molecule.get_rotate' followed by '_translate' on the next line. Both boxes have a thin black border.

```
src.molecule.get_rotate  
_translate
```
