

src.molecule.Molecule.require
_boxes

```
graph LR; A[src.molecule.Molecule.require_boxes] --> B[src.molecule.BuildLattice FromLengthsAngles]; A --> C[src.molecule.BuildLattice FromVectors];
```

The diagram illustrates a method call. A gray box on the left contains the text 'src.molecule.Molecule.require' followed by '_boxes' on a new line. Two blue arrows originate from the right side of this box. The top arrow points to a white box containing 'src.molecule.BuildLattice' followed by 'FromLengthsAngles' on a new line. The bottom arrow points to another white box containing 'src.molecule.BuildLattice' followed by 'FromVectors' on a new line.

src.molecule.BuildLattice
FromLengthsAngles

src.molecule.BuildLattice
FromVectors
