

Logger

```
classDiagram
    class Logger
    class ModLogger["src.output.ModLogger"]
    ModLogger --|> Logger
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'Logger'. Below it is a box labeled 'src.output.ModLogger'. A blue arrow points from the 'src.output.ModLogger' box up to the 'Logger' box, indicating that 'src.output.ModLogger' is a subclass or inherits from 'Logger'.

src.output.ModLogger
